AgriKhata App is specifically designed to Manage the Business of APMC Commission Agent to Manage their Business with ease. It stores the overall Inward & Outward Transactions, Collections Entries and Generate Reports like Outstanding Report, Cash and Credit Report etc.

It allows owner to manage their business using Desktop and Mobile too.

### • Inward And Outward Entries

AgriKhata App provides a straightforward and user-friendly App. You can add new entries for inward data, quantity, and price in the inward and outward module, and it will automatically generate the Reports.

### • Outstanding and Collections Entries

Based on previous data gathered. Maintaining prior data of collections is crucial, which is why we created a new function called Opening Balance entry, which allows you to input previous outstanding amounts and automatically calculate their total Outstanding based on transactions

### • Reporting and Analysis

Reports show us our overall level of Transactions. AgriKhata offers a variety of reports. It keeps track of each client, farmer, and item reports in date wise. Likewise, keep up with your cash, credit and collection reports. The total amount due is disclosed in the outstanding report. It also provides a customer-specific ledger report in the customer ledger.
